

NOTICEBORED

Security awareness survey on

Malware

Please help us measure the effectiveness of the information security awareness program by answering the questions below. Simply mark the appropriate points on the color scales.

1. How much did you know about malware before reading the latest awareness materials?

2. How much have you learnt about malware from the awareness program?

3. In your opinion, how important is malware to the organization?

Your thoughts on information security will help us improve the awareness program. Please comment in the spaces above, in the box below, on the other side of this sheet ... or simply contact Information Security. Thank you for taking the trouble. Your feedback is welcome.

4. What to do when you have completed the form

Send the completed form to Information Security before the end of the month. While anonymous responses are fine, please provide your contact details if you'd like to enter the prize draw:
